Academic Qualifications:

Degree / Certificate	Degree	Discipline	Institute	Board / University	Year of Passing	Aggregate % / CGPA
Post-Graduation	MCA	Master of Computer Applications	Techno College Hooghly-188	MAKAUT	2026	7.22 CGPA
Graduation	BCA	Bachelor of Computer Application	Techno India Hooghly-152	MAKAUT	2024	8.34 CGPA
12 th	HSC	Commerce	SMHS	WBCHSE	2021	75.2 %
10 th	SSC	Compulsory subjects	SMHS	WBBSE	2019	63.4 %

Trainings / Projects Undertaken:

Title : HealthCare Management System (Health Plus)

Duration : 5 months

Description : Healthcare management system is a virtual healthcare that means online patient care and this system is web-base. This system is designed for a single clinic/ health test laboratory, which is have many branches. But each branch is connected with a only one system. Here users can login and booked appointments for their required medical tests. For getting an appointment at first user need to login at this site, if user are not registered already. Users can get location about other nearest branch of clinic from here and booked appointment from their nearest clinic branch . The benefits that can be found in this system are : different type of test like -Blood test, X-ray, USG, ECG, BP, sugar etc. Doctors check up and Blood Bank services also available in this system. So users can make appointment for whatever they want from our system.

Title : Online Psychological Counseling System

Duration : 5 months

Description : The proposed online psychological counseling system, developed using Laravel, offers users a confidential platform to assess their mental well-being through established psychological theories like the Likert Scale. Upon completing the assessment, the system intelligently determines the need for counseling. Users are then presented with acurated list of qualified psychologists for appointment booking. To streamline the process, advance payment for appointments is integrated. This user-friendly and secure platform aims to provide accessible mental health support, leveraging technology to bridge gaps in psychological well-being assessment and counseling services.

Title : STUDENT PERFORMANCE TRACKER (web application)

Duration : 5 months

Description : The Student Performance Tracker is a web application designed to help teachers and schools/college easily track and manage student progress. It allows teachers to upload, view, and analyze student scores, attendance records, and academic progress. The system helps identify students who need extra support and makes it easier to communicate progress with parents. It is user-friendly and saves time by keeping all student data in one place. This project uses web technologies like HTML, CSS, JavaScript, bootstrap, React JS, Node JS and a database to store records using MongoDB. It aims to improve learning outcomes through better monitoring and data analysis. this application ensures real-time access and efficient management of academic records for teachers.
